

# ANNUAL REPORT WAIMATE SENORNET 2010

It is with much pleasure that I present my Annual Report to you.

The upgrading of our computers has not been as successful as we would have liked and the committee has decided to try and obtain a grant to purchase five new one with windows 7 on them as an operating system.

Last year Kiwi Bank decided to replace all the laser printers in their branches, and very generously offered their used ones to the local SeniorNet free of charge. Our local Kiwi bank (R&R Bookshop) gave us not only the printer but also an unused cartage of toner, which should see us through a lot of printing.

John Bowers has resigned from the club and is returning to Christchurch. In the time he has been with us John has been of great assistance to us especially in the setting up of our web site and conducting short courses. His knowledge and willingness to help will certainly be missed and we wish John and Thelma all the best in their new home at Prebbleton.

Telstra Clear is sponsoring the SeniorNet Federation and our Committee has decided to change our land line and internet over to Telstra. We have just changed over this month and an added bonus is that we get our land line free of charge for the first six months.

I would like to record our gratitude to Aoraki Polytechnic for their support and the help they so readily give us as a club over the year.

Special thanks must go to Francis Thompson for the time he gives each year to keep our computer network up and running, and always being available to assist when things are not performing as they should.

Last but certainly not least I would like to thank all the Committee and those members tutoring and helping to make Waimate SeniorNet the successful organisation that it is. This Committee is fully committed to the ideal of helping all members to become as proficient as possible at computing and willingly give of their time to see that this happens.

John P. Keenan.  
President.
