SENIOR NET NEWSLETTER

Welcome to another year of news and updates with SeniorNet Waimate.

By now everyone will be settled into their New Year routine so it is time to ensure that you keep up with the latest via your SeniorNet Club.

At the moment there is a Word Processing Course progressing towards its termination and another course to start on Thursday morning 9.30am 21st February for those who have their names down on the list. Hopefully you will all be able to attend regularly as your tutors also have committed themselves to teaching you so it is appreciated that you fulfil your commitment to them with your attendance. Should you be unable to attend a lesson then please don't hesitate to ring either your tutor or the rooms so that we know your situation. We appreciate this kind of input from you all.

Read recently a warning for Internet buyers to take care when shopping and paying for goods and services on the internet. It pays to note the company's contact details, including a street address and landline telephone number and not to reply only on an email address, a P.O.Box no. or Cellphone. Most internet sites accept credit cards so only use your credit card for payment online if the retailer uses a secure payment system, which some credit card companies reserve the right to reverse transactions if there is a disputed charge. Contact your bank for further details about this. And remember always print out a copy of your order and acknowledgement of payment that you should receive.

Your committee is endeavouring to compile a timetable from which to work, offering courses on specific days for a specific length of time so if approached by one of the committee members re your response to this set up please offer your honest opinion. It is always appreciated. Also don't forget to keep in touch with up and coming activities i.e. Open Members Days on last Tuesdays of every month, starting in March, via our website i.e.

www.seniornetwaimate.org.nz.

Till next time. Happy computing.
